

Electric Fireplaces

MAJESTIC 

## Electric Fireplaces

With an electric fireplace from Majestic, it's easy to add the ambiance and elegance of fire to any room in your home. With no venting or gas lines required, an electric fireplace is the perfect solution for interior rooms with challenging or no venting options, high-rise buildings, condos, cottages, RVs – or anywhere else an electric appliance can be used. With the option to either plug in or hardwire to your existing 120V service, these fireplaces are a flexible choice for any design application.

### EF500

The EF500 electric fireplaces from Majestic comes with a range of standard features and a heat or no heat operation option – making it easy to enjoy year round.

EF500 with birch wall surround and hearth in Dark Cherry finish with Pewter arched front

Give people a place to gather – make fire the focal point of your room again with an Electric Fireplace from Majestic.

## Allura-Fire Electric Fireplaces

With richly colored flames dancing amidst true-to-life logs, you may forget that it's not a real fire. That's the magic of Allura-Fire Electric Fireplaces from Majestic. Now you can add the elegance of a fireplace to any room in your home. Models are available in 26", 33" and 36" sizes so it's easy to find the perfect fit. And the entire unit is controlled by a multi-function remote control that allows you to control the flame, the heat, and everything in between without the need for venting.
